The **Video Production C.C.C. (DMVP)** degree is a collegiate degree program consisting of lower-division courses where students learn basic digital video production techniques, and desktop video editing, using industry-standard software. They will also learn to create basic graphical elements for incorporation in to video. The goal of this program is to prepare students for initial employment as a videographer or video editor, or to provide supplemental training for persons previously or currently employed in the field of video production.

After completing this program, students will have a strong knowledge of the skills and equipment needed to produce digital video sequences, enabling them to make an informed choice about their future education and career path.

This college credit certificate is embedded in, and can be completed as part of, the **Digital Media and Design, A.S.** program.

Note: Digital Media courses that are only offered in the fall semester are designated as “fall only.” Digital Media courses that are only offered in the spring semester are designated as “spring only.”
