Model Standards of Good Practice for Trustee Boards

In Support of Effective Community College Governance, The Board Believes:

- That it derives its authority from the community and that it must always act as an advocate on behalf of the entire community;
- That it must clearly define and articulate its role;
- That it is responsible for creating and maintaining a spirit of true cooperation and a mutually supportive relationship with its CEO;
- That it always strives to differentiate between external and internal processes in the exercise of its authority;
- That its trustee members should engage in a regular and ongoing process of in-service training and continuous improvement;
- That its trustee members come to each meeting prepared and ready to debate issues fully and openly;
- That its trustee members vote their conscience and support the decision or policy made;
- That its behavior, and that of its members, exemplify ethical behavior and conduct that is above reproach;
- That it endeavors to remain always accountable to the community;
- That it honestly debates the issues affecting its community and speaks with one voice once a decision or policy is made.
